GIS Developer & Analyst

I am a sociable, determined, and ambitious individual. I naturally navigate both formal and informal situations in any environment. I am adept at explaining complex concepts with extreme simplicity, tailoring my language to the audience—whether students or professionals at international scientific congresses.

Leveraging my expertise, I offer a variety of services, including professional cartography, characterization, quantification, and modeling of natural processes, ore deposit exploration, GIS software development, geospatial analysis, and remote sensing. Additionally, I provide scientific writing, management of experimental and laboratory activities, and professional sampling of environmental matrices. I specialize in hydrogeological instability and erosion phenomena in wildfire-affected areas.

PROFESSIONAL EXPERIENCE

Technical Internship

October 2023 – January 2024

CSIC-IGME - Madrid, Spain

- Remote Sensing
- Rockfall modeling with STONE in wildfire-affected areas

Predoctoral Fellow

April 2022 - October 2022

University of Cagliari, Italy

- Characterization of geomorphological processes in wildfire-affected areas
- Soil sampling
- Final report

Technical Internship

June 2019 - December 2019

ARPAS- Cagliari

- Determination of background values in abandoned mining areas (proUCL)
- Production of geochemical mapping and sampling preparation
- Final Report

Technical Internship

May 2017 - November 2017

ARPAS - Cagliari

- Characterization of Radon risk exposure
- Sample preparation for XRD, XRF, and Gamma Spectrometry analysis
- Final Report

EDUCATION

PhD in Earth and Environment Sciences

October 2022 - February 2026

University of Cagliari

Licensed Geologist

June 2021

University of Cagliari

Degree in Geological Sciences and Technologies

September 2018 - July 2020

University of Cagliari

LANGUAGES

English	Proficient, C1
French	Upper-Intermediate, B2
Spanish	Upper-Intermediate, B2
Italian	Native
Sardinian	Native

TECHNICAL SKILLS

OS: Windows, Linux e Android. **Programming:** Python & software development

Productivity & Design: Microsoft Office Suite, Open Source Office Suite, Inkscape, MS Teams

GIS & Geospatial: QGIS, ArcGIS, ArcPy, SUBSTR8. **Command Line:** shell & bash
